

# **Annual Program Report**

Program Name:	Mechanical Engineering
Qualification Level:	Bachelor of Science (B. Sc.) in Mechanical Engineering
Department:	Department of Mechanical and Materials Engineering
College:	Engineering
Institution:	University of Jeddah
Academic Year:	2020/2021
Main Location:	Main Campus, University of Jeddah
Branches offering the	No Branches
Program:	

## **Table of Contents**

A. Implementation of Previous Action Plan	
B. Program Statistics	~
1. Students Statistics (in the year concerned)	.3
2 . Cohort Analysis of Current Graduate Batch	.3
3.Analysis of Program Statistics	.4
C. Program Learning Outcomes Assessment	
1. Program Learning Outcomes Assessment Results	.4
2. Analysis of Program Learning Outcomes Assessment	.6
<b>D. Summary of Course Reports</b>	.6
2. Courses with Variations	.7
3. Result Analysis of Course Reports	.7
E Program Activities 8	
1. Student Counseling and Support	.8
2. Professional Development Activities for Faculty and Other Staff	.8
3. Research and Innovation	.8
4. Community Partnership	.9
5. Analysis of Program Activities	.9
<b>F. Program Evaluation</b>	10
2. Students Evaluation of Program Quality	11
3. Other Evaluations	11
4. Key Performance Indicators (KPIs)	12
5. Analysis of Program Evaluation	13
G. Difficulties and Challenges Faced Program Management	

## A. Implementation of Previous Action Plan

Considering the recommendations of previous year annual report, list the planned actions and their status.

Planned Actions	Responsibility Planned Completion		Level of Completion		If Not Completed	
T famileu Actions	of Action	Date	Completed	Not Completed	Reasons	Proposed Actions
1. Lack of licensed software needed for some courses		Next Semester		V		Ask to buy licenses
2. Shortage of Lab facilities	Faculty Dean	Next Semester		V	Unavaila bility of a budget	Ask to move to the new buildings as soon as possible
3. Moving to the new building, and preparing classrooms suitable for students, as well as workshops and laboratories	University of Jeddah	Next Academic Year		V		Ask to move to the new buildings as soon as possible
4.						

## **B. Program Statistics**

## **1. Students Statistics** (in the year concerned)

No.	Item	Results
1	Number of students who started the program	147
2	Number of students who graduated	41
	Number of students who completed major tracks within the program (if applicable)	
3	a.	
5	В	NA
	с.	
4	a. Number of students who completed the program in the minimal time	0
5	a. Percentage of students who completed the program in the minimal time	0
č	(Completion rate)	
6	Number of students who completed an intermediate award specified as an early	0
U	exit point (if any)	
7	Percentage of students who completed an intermediate award specified as an early	0
/	exit point (if any)	
Com	ment on any special or unusual factors that might have affected the completion	rates:

The summer semester strategy offering the courses only for graduating and preparatory year students only! This doesn't help the students to complete the program early

## **<u>2</u>**. Cohort Analysis of Current Graduate Batch

Student Categories Years		Total cohort enrollment	Withdrawn	Retained till year end	Not passed	Passed	Passing rate
	М	25		25	3	22	22/25
Three Years	F	-					
1150	Total	25		25	3	22	22/25

	М	32	1	31	3	27	27/31
Two Years	F	-					
Ago	Total	32	1	31	3	27	27/31
	М	37	0	37	4	33	33/37
Last Year	F	-					
	Total	37	0	37	4	33	33/37
	М	41	0	41	2	39	39/41
Current Year	F	-					
	Total	41	0	41	2	39	39/41

**Comments on the results:** 

- The passing rate is lightly increased due to several reasons
- The PLOs are updated to comply with ABET.
- The direct assessment of PLOs K1, S2 and C2 not up to the mark while other gives satisfaction % and up to the average score.
- The higher value of other PLO is because of less no. of students participated in PLO survey.

\* add more rows for further years ( if needed )

\*\* attach separate cohort analysis report for each branch

### **3.**Analysis of Program Statistics

(including strengths, areas for improvement, and priorities for improvement)

#### Strengths :

- The passing rate is good
- Number of students is increased as the general attitude of the University of Jeddah
- Passing rate is slightly improved in the last three years

#### Areas for Improvement:

- The accurate assessment of the PLOs helps to find and detect the points of weakness in the academic program
- The CLOs of the key courses need revising in order to serve the PLOs
- The rate of passing students is increased
- More students can complete an intermediate award specified as an early exit point

#### **Priorities for Improvement:**

- Minimizing the non-passing students and improve the quality of the enrolled students to be appropriate to the intended level of study
- Revise CLOs for key courses with paying more attention while delivering these CLOs to improve PLOs assessment

## **C. Program Learning Outcomes Assessment**

#### **1. Program Learning Outcomes Assessment Results.**

#	Program Learning Outcomes	Assessment Methods (Direct and Indirect)	Performance Target	Results		
Kno	Knowledge and Understanding					

-

K1	State essential facts, fundamentals, concepts, principles and theories relevant to mechanical and	Midterm, and final Exams, HomeWorks	75%	73%
	materials engineering.			
K2	Select concepts and theories of complex engineering problems, basic sciences, mathematics and the technological base relevant to mechanical, materials and energy engineering.	Major , and final Exams, HomeWorks	75%	74%
K3	Describe engineering design principles and techniques and their applications to mechanical, materials and thermal engineering.	Midterm, Major , and final Exams, HomeWorks	80%	78%
K4	Identify the characteristics and properties of materials relevant to mechanical and materials engineering applications.	Midterm, Major , and final Exams, HomeWorks	75%	77%
K				
Skil	s			720/
51	Solve complex engineering problems by applying principles of engineering design in mechanical, materials and energy systems.	Oral presentations, quizzes Exams, HomeWorks	/5%	73%
S2	Apply the appropriate tools of engineering design such as mechanical design and thermofluidic principles with consideration for public health and safety, and global, cultural, social, environmental, economic, and other factors as appropriate to the discipline.	Senior projects, reports, oral Presentations	80%	80%
<b>S</b> 3	Develop and conduct appropriate experimentation, analyze and interpret data, and use mechanical engineering judgment to draw conclusions to obtain new data.	Oral presentations, quizzes Exams, HomeWorks, Lab reports	80%	78%
S4	Evaluate mechanical and energy engineering designs, processes and performances and propose improvements.	Oral presentations, quizzes Exams, HomeWorks	85%	80%
S				
	les	Presentations	850/	8204
V I	communicate effectively with a range of audiences	teamwork projects	0.3%0	0270
V2	Point ethical and professional responsibilities in engineering situations and make informed	Senior projects, Quizzes, Exams	85%	82%

	judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.				
V3	Communicate effectively as a member or leader of a team that establishes goals, plans task, meets deadlines, and creates a collaborative and inclusive environment in mechanical and materials engineering	Teamwork projects	80%	75%	
V4	Recognize the ongoing need to acquire new knowledge and ability to have new learning strategies in mechanical and material engineering.	Oral presentations, quizzes and Exams, HomeWorks	75%	72%	
V					
Con	Comments on the Program Learning Outcome Assessment results.				
-	<ul> <li>The successful implementation of online learning via BB</li> <li>The experiences added to students and teaching staff in teaching via BB</li> </ul>				

\* Include the results of measured learning outcomes during the year of the report according to the program plan for measuring learning outcomes

\*\* Attach a separate report on the program learning outcomes assessment results for male and female sections and for each branch (if any)

#### 2. Analysis of Program Learning Outcomes Assessment

(including strengths, Areas for Improvement:, and priorities for improvement)

Strengths :

- All students have good knowledge and skills
- All PLOs are measured using rubrics

#### Areas for Improvement:

- Values should be improved (this may be contributed to COV19)

#### **Priorities for Improvement:**

Values PLOs should be improved

## **D. Summary of Course Reports**

#### 1. Teaching of Planned Courses / Units

List the courses / units that were planned and not taught during the academic year, indicating the reasons and compensating actions.

Course	Units/Topics	Reasons	<b>Compensating Actions</b>
NA	NA	NA	NA

### 2. Courses with Variations

List courses with marked variations in results that are stated in the course reports, including: (completion rate, grade distribution, student results, etc.), and giving reasons for these variations and actions taken for improvement.

Course Name &Code	variation	<b>Reasons for variation</b>	Actions taken
NA	NA	NA	NA

### 3. Result Analysis of Course Reports

(including strengths, Areas for Improvement:, and priorities for improvement)

Strengths :

- Most of the course grade distribution are within normal range
- All courses had been taught as scheduled with nearly no variation
- The successful implementation of online learning via BB
- The experiences added to students and teaching staff in teaching via BB

Areas for Improvement:

- Some courses have little high completion rates.

**Priorities for Improvement:** 

- Prepare Labs for better graduates
- Establish a departmental library with associated study room, both equipped with PC and printers, and connected to the internet
- Move to the new building for better infrastructure

-314-

## **E. Program Activities**

### 1. Student Counseling and Support

Activities Implemented	Implemented Brief Description*		
Academic advising day	Mechanical and Materials department organized		
Team design projects day	jects day College of Engineering organized		
······			
Comment on Student Couns	eling and Support **		
Electronic service helps the			

\* including action time, number of participants, results and any other statistics.

\*\* including performance evaluation on these activities

### 2. Professional Development Activities for Faculty and Other Staff

Activities Implemented	Brief Description*
Workshop "how to teach using Blackboard"	College of Engineering organized
Staff members attended workshops regarding preparing reports and accreditation	Department of Mechanical and materials engineering
Dean, Vice dean, and some HoDs attended workshops regarding leadership and accreditation	During semester 20201, however pandemic hold these workshops
Comment on Professional D	evelopment Activities for Faculty and Other Staff **

\* including action time, number of participants, results and any other statistics.

## \*\* including performance evaluation on these activities

### 

#### Comment on Research and Innovation \*\*

\* including action time, number of participants, results and any other statistics. \*\* including performance evaluation on these activities

#### 4. Community Partnership

Activities Implemented	Brief Description*
Smart Jeddah Food truck	
Improvement of Usfan Road	
Water Desilnation company visit	
Forging workshop Al waha	
Comment on Community Pa	artnership **

\* including action time, number of participants, results and any other statistics.

\*\* including performance evaluation on these activities

### 5. Analysis of Program Activities

(including strengths, Areas for Improvement:, and priorities for improvement)

Strengths :

- Effective workshop for students' advising

#### Areas for Improvement:

- Direct and indirect assessment for every LO is performed via a spreadsheet for accurate assessment and instant feedback
- The community activities were limited and need to be more active

#### **Priorities for Improvement:**

- Online workshops can be organized

## F. Program Evaluation

## **1. Evaluation of Courses**

Course Code	Course Title	Student Evaluation (Yes-No)	Other Evaluations (specify)	Developmental Recommendations
ENME 101	Engineering graphics	Yes		
ENME 102	Basics workshops	Yes		
ENME 203	Dynamics	Yes		
ENME 204	Thermodynamics I	Yes		
ENME 205	Fluid mechanics	Yes		
ENME 210	Mechanical Engineering Drawing	Yes		
ENME 212	Mechanics of Materials	Yes		
ENME 313	Mechanical Design	Yes		
ENME 331	Manufacturing Technology	Yes		
ENME 341	Internal Combustion Engines	Yes		
ENME 351	Thermodynamics II	Yes		
ENME 352	Heat Transfer	Yes	Evaluations by faculty and	
ENME 353	Applied Fluid Mechanics	Yes	program leaders	
ENME 381	Automatic Control Systems	Yes		
ENME 415	CAD design	Yes		
ENME 455	Mechanical Measurements	Yes		
ENME 454	Refrigeration and A/C I	Yes		
ENME 414	Machine Dynamics & Vibrations	Yes		
ENME 456	Power Plants	Yes		
ENME 457	Pumps and Hydraulics	Yes		
ENME 457	Senior Project	Yes		
ENME 442	Automotive Engineering	Yes		
ENME 464	Thermal destination	Yes		

Course Code	Course Title	Student Evaluation (Yes-No)	Other Evaluations (specify)	Developmental Recommendations
ENME 432	Advanced manufacturing technology	Yes		
ENME 423	Welding technology	Yes		

## 2. Students Evaluation of Program Quality

Evaluation Date : (May 2021)	Number of Participants: 6
Students Feedback	Program Response
<ul><li>Strengths:</li><li>Academic help and support</li></ul>	Academic help and support % of satisfied students (60%) Average Score (4.25) Learning Evaluation % of satisfied students (60%) Average Score (4.18)
Areas for Improvement::	
• Academic advisory	
<ul><li>Suggestions for improvement:</li><li>Libraries and study rooms supported with IT means</li></ul>	

\* Attach report on the students evaluation of program quality

### **3. Other Evaluations**

(e.g. Evaluations by independent reviewer, program advisory committee, and stakeholders (e.g., faculty members, alumni, and employers)

Evaluation method : survey	Date: 1-05-2021Number of Participants : 86		Number of Participants : 86

#### **5.** Analysis of Program Evaluation

(including strengths, Areas for Improvement:, and priorities for improvement)

#### Strengths :

- Number of students/Staff member is appropriate
- Staff research are acceptable

#### Areas for Improvement:

- Qias or FE exams are not done
- No enough lab rooms especially for engineering graphics and basic workshops courses

#### **Priorities for Improvement:**

- Move to the new buildings for more infrastructure and Labs

Difficulties and Challenges	Implications on the Program	Actions Taken
Lack of licensed software needed for some courses	Difficulties in teaching some courses	Ask to buy licenses
Shortage of Lab facilities	Difficulties in teaching some courses	Ask to move to the new buildings as soon as possible
L		

## **G. Difficulties and Challenges Faced Program Management**

\*Internal and external difficulties and challenges

## H. Program Improvement Plan

No	Priorities for Improvement	Actions Action	Date		Achievement	Target	
190.		Actions	Responsibility	Start	End	Indicators	Benchmark
1	Moving to the new building, and preparing classrooms suitable for students, as well as workshops and laboratories	Moving to the new building	University of Jeddah				
2	Lack of licensed software needed for some courses	Ask to buy licenses					
3	Shortage of Lab facilities	Ask to move to the new buildin gs as soon as possible	Faculty Dean
